Why Islam Does Not Belong in the Western World

BY FJORDMAN (A.K.A. PEDER JENSEN)

The fact is that the much-vilified Islam-critics and so-called “Islamophobes” have been entirely correct in their comments and analyses for years. Political leaders and media commentators throughout the Western world keep telling us that Islam is at heart a peaceful religion which is being abused by “extremists” and that continued Muslim immigration to our countries is good and should continue. They are not telling the truth.

Yes, mass immigration can be a problem by itself, also of non-Muslims, but Islam is a uniquely aggressive and violent creed. No other major, established religion on this planet stipulates the death penalty for criticizing or mocking its founder and its teachings. Traditional Islamic law does. That’s why no other religious community on Earth behaves the way Muslims are doing globally.... The people and groups doing this have already declared war on us and our societies, whether we like this or not.

For over a thousand years, Islamic teachings have stipulated only three options for non-Muslims: Convert to Islam, submit to Islamic rule as a virtual hostage in your own country, or fight. Once you start kneeling to Islam, though, there is no going back. You will have to live on your knees every single day for the rest of your life, and your children and grandchildren will be condemned to doing the same, under an eternal shadow of fear of Muslim abuse, violence, and aggression.

Islam means “submission.” If you are not willing to submit to Islam or Islamic rule, then Islam is your mortal enemy, always has been, and always will be. Yes, Islam itself. Not “radical Islam,” “militant Islam,” or “evildoers abusing the peaceful teachings of the Koran.” Islam. ■
